

Carsington Fishery Report

15th July 2013

Another good week of fishing despite the warm weather.

Fish have been caught in deeper water and many anglers have been fishing intermediate and sinking lines on the drift from shallows to deeper water. Fry patterns have proved very successful and have been present when fish have been spooned.

Lovely summer day with as little bit of breeze!

Rod Average

The rod average for last week was 3.37 with 219 fish caught by 65 anglers.

Best Rainbow/Brown

The heaviest rainbow weighed 3lb 12oz caught by Chris Hodgkiss. A number of brown were caught but none of the sizes were recorded.

Top Spots

The top spots this week have been Brown Ale bay, North end, fishtail creek, Upperfields Bay, Millfields & Sailing club island and Watersports island although further from the banks in deeper water.

Method & Flies

The most popular fly patterns used this week have, minnows, cats whisker, orange booby, sedges, other popular patterns were daddies, daiwl bach, hares ear, bibio and hot head damsel. Mostly intermediate and sinking lines have been used this week.

Dates for the diary

We have a few competitions coming up for the autumn months

- Fishing for Heroes, Sat 12th July 2013
- Carsington Autumn Open Completion, Sat 26th October 2013

More information will be published in future reports or you can ask at reception when you are next fishing.

***Boats can leave the jetty from 8.30am
All boats are back to the jetty by 9.30pm***

Please allow a few minutes to return from your fishing spot

Please note that Carsington is a boat fishing water only. It is advisable that boat bookings are made in advance to avoid disappointment. Discounts are available for bookings of 5 or more boats.

Bookings taken by telephone on 01629 540478 or email flyfishing@carsingtonwater.com
