

# Carsington Fishing Report

30<sup>th</sup> June 2014

The rod average for this week has stayed just above 3. It has been quite a difficult week although we have had some great comments of how great the fishing is for this time of year, quality conditions and quality fish.

Please note - we are fully booked for boats on Thursday 19th June 2014

*It's such a great fish i thought we would have it on the report again this week!*

*15lbs 4oz brown caught by Mr B Rushton*

## Rod Average

The rod average for this week was **3.16** with 269 fish caught by 85 anglers.

## Best Rainbow/Brown

The heaviest rainbow this week was 4lbs caught by Mr D Allen on a blob near the north end. The heaviest brown caught was 3lbs caught by Mr J Pawliw on a diawl bach.

## Top Spots

The most successful areas have been Sheepwash, Brown ale bay, North end, back of the islands.

## Methods & Flies

The most successful patterns were hares ears, damsel nymph, black buzzers, diawl bachs, orange blob, black fritz, cats whisker, lead bugs and black hoppers

Most fish have been caught on floating, intermediate lines and sinking lines depending on the areas and weather conditions. We have seen some decent evening conditions with fish rising to the surface but also fish have been caught in deeper water towards the centre of the reservoir. Some people have been successful on dry patterns.

## Early Closing - Sat 12th July 2014

On Sat 12th July the fishery will be closing at 7pm therefore all boats must be back to the jetty just before 7pm.
