It's great to be starting the season once again with a full reservoir all this winter rain has certainly helped. Over the winter we have been busy preparing the fishery for the coming season and below are some of the details.

Stocking

We are pleased to confirm that we have secured stocking from the same 2 suppliers as the last 3 seasons. The stocking regime has been organised to ensure regular (usually weekly) stocking throughout the season. As usual we will be stocking both rainbow and brown trout at various locations around the reservoir to help the fish distribute as naturally as possible. With several deliveries pre-season we hope the opening weekend will present some excellent sport.
